

Michael Mangold

Retail Launches, Cultural Activations & Campaigns · Founder

New York, NY · +1 (646) 520-8673 · mike@mike9ine.com · linkedin.com/in/mikenine · mike9ine.github.io/nothing

Six years founding consumer brands, where I built the events and launch infrastructure from nothing because there was no playbook to inherit. Ran ~1,700 people across four events, including an Air Max Day activation with Nike and Titolo, and produced the garments shown at Paris Fashion Week for Vogue at 21. Took the same brand from 0 to 150,000+ followers with zero paid spend to \$1M ARR. Forbes 30 Under 30. Electrical Engineering at ETH Zürich.

EXPERIENCE

Founder · Content OS 2026–Present
New York, NY

- Building an analytics layer that explains why content moves a business metric, the way Ads Manager explains paid spend.

Marketing & Go-To-Market Advisor · Resonance Brands, Ambouras, and other early-stage companies 2026
New York, NY

- Retained by Resonance Brands as strategic marketing advisor, four days a week, reporting to the founder of FirstMark Capital.
- Advised Ambouras on go-to-market and organic growth over a two-month engagement. The company went on to Y Combinator.

Co-Founder, Head of Marketing then Head of Growth · Labwear Studios 2021–2026
Zürich, Switzerland · Fashion manufacturing platform for next-generation brands · Forbes 30 Under 30

- Ran ~1,700 people across four events, including an Air Max Day activation with Nike and Titolo (500) and Labwear's anniversary three years running, growing 300 to 400 to 500. Panel talks, exhibitions, live screenprinting, VR tours, and a magazine produced for two of them.
- Opened Labwear's first showroom at Paris Fashion Week SS25. Owned scope, budget, vendors, on-site setup and breakdown, and the post-launch review on every one, because there was nobody else to hand it to.
- Produced the garments shown at Paris Fashion Week for Vogue at 21, after their own factory could not solve it. Met Anna Wintour through the work.
- Grew the brand from 0 to 150,000+ followers organically with no paid media or agency. The launch funnel delivered ~20,000 signups in month one, and the business reached \$1M ARR by 2024.

Co-Founder & CMO · Tecido Schweiz GmbH 2020–2021
Zürich, Switzerland · Sustainable company merchandise

- Took the company to its first six-figure revenue, running sales, hiring and marketing.

Co-Founder · Vintage Yard 2019–2020
Switzerland · One of Switzerland's first online second-hand stores

- Reached the top Google ranking in its category. Where I learned SEO and organic social from the ground up.

Sales Associate · Nike 2019–2021
Landquart, Switzerland

- Two years on a retail floor for a global brand. Product launches, in-store merchandising and customers who tell you the truth immediately.

RECOGNITION

Forbes 30 Under 30 · Switzerland, for Labwear Studios

Hult Prize, \$100,000 won · Top 6 globally of 200,000 participants.
Regional final in Lisbon, five-week global accelerator in Paris.
